'Making the world a Healthier Place'

- Dream that drives us at Nosch. The laudable goal that we aim for. The vision that suffuses us with the passion to innovate and excel.

Over the past twenty two years, we have been ceaselessly engaged in a quest to sustain and improve the quality of life through creating safe pharmaceutical solutions. Our competencies have grown to embrace the entire pharmaceutical value chain - APIs and Semi-finished Formulations.

Today, with an impeccable reputation for uncompromising quality and timely delivery, Nosch has emerged as the partner of choice across the world.

Production Prowess

Nosch's manufacturing operations span across 4 units in the south Indian state of Telangana. While two are dedicated API Units, the other two are for Semi-finished Formulations / Pellets. The plants, built and operated in conformance with the latest cGMP norms, house R&D labs, technical services, quality control, quality assurance and regulatory affairs and are regularly inspected and approved by major customers and regulatory agencies across the world.

The state-of-the-art equipment and instruments provide us the necessary competitive edge on the global stage. Moreover, the infrastructure with its optimum installed capacities and capital costs, lends us a sustainable cost advantage.

R & D - An Eye to the Future

R&D activities are focused on process development. The sophisticated labs, manned by a talented, well-qualified team of professionals, develop proprietary processes for organic and custom-made molecule. The department plays an active role in the selection of new products and charting non-infringing routes for manufacturing the same.

One of the main keys to Nosch's success has been the development and launch of products at the right time, in the right form and at the right price. Our R&D department enables us to perform to perfection, time after time!

Strength in Semifinished Formulations

Nosch has acquired the necessary expertise to develop semifinished formulations for various products and look forward to successfully partnering in formulation and dossier development projects.

Team Strength

The true prized assets at Nosch are the people. Highly motivated and trained, they reflect a perfect blend of zeal and commitment. Sensitive to the needs of customers and proactive with solutions, they rise to meet the challenges of a constantly changing pharma world with a competitive spirit and a winner's attitude. In fact, the superior technical and innovative capabilities of our team lend us the confidence to emerge as a major player in the international arena.

Committed to Customer Delight

At Nosch, we believe in forging strong bonds with our customers through delivery of products on-time, cost-effectively and securely. Quick response time, comprehensive technical support and top-notch quality products have seen Nosch record a healthy turnover.

Company provide Technical Documentation and support for all of its products.

Caring for the Environment

As a responsible social citizen, protecting the environment is an issue that is close to our heart. We have made substantial investment in installing the latest pollution control equipment to keep pollution levels to the absolute minimum. A green belt of lush vegetation around the plants lends a scenic setting.

To conclude, we are determined to forge strong bonds with customers. Through continuous improvement in performance. Delivering products that meet individual specifications. And operating in an efficient, cost-effective and quality-driven manner.

Nosch

The Nosch Credo

We are totally dedicated to our commitment to offer products of outstanding quality, using advanced technology, at a reasonable price and to set new benchmarks in service excellence.
